

PUBLIC NOTICE

PERMIT APPLICATION: NRS #06.034

APPLICANT: State of Tennessee
Department of Transportation
Environmental Planning and Permits Division
Suite 900, J. K. Polk Bldg.
505 Deaderick Street
Nashville, TN 37243-0334
615-253-2441

LOCATION: SR-210 Bridge over unnamed tributary to South Fork Forked Deer River
Dyer County

WATERSHED DESCRIPTION: The South Fork Forked Deer River watershed consists of numerous wetlands and incised tributaries. Land use is predominantly rural/agriculture. The unnamed tributary is primarily silt/sand bottomed and varies in width approximately 3 – 12 ft. wide with 2 - 6 foot banks. The existing vegetation along the stream channel is mature hardwoods and grasses.

PROJECT DESCRIPTION: The applicant proposes to reconstruct bridge and approaches over an unnamed tributary. The construction of 95 ft. of single span concrete box beam bridge would require the permanent impact to 0.58 ac. and temporary impact to 0.51 ac. of wetlands. Debiting, at a 2:1 ratio, 1.16 acres of available wetland credit in the Obion County Wetland Mitigation Bank, would mitigate permanent impacts. Temporary impacts would be mitigated by returning the affected area to original elevation and planting with hydrophilic wetland plants. Standard erosion control devices would be used to prevent sediment from entering flowing water. Upon completion of the work, all disturbed areas would be stabilized.

PERMIT COORDINATOR: Brian Canada, STATE OF TENNESSEE, Department of Environment and Conservation Division of Water Pollution Control, 7th Floor, L&C Annex, 401 Church Street,
Nashville, Tennessee 37243-1534

USGS TOPOGRAPHIC QUADRANGLE: **Fowlkes, TN (421-NW)**

TO WHOM IT MAY CONCERN: The application described above has been submitted for an Aquatic Resource Alteration Permit pursuant to *The Tennessee Water Quality Control Act of 1977*, T.C.A. §69-3-108.

The purpose of this notice is to advise all concerned of the proposal for which a permit is sought, and to solicit comments and information necessary to evaluate the probable impact of the activities upon the respective water resources. The decision whether to issue or deny will in part be based upon that evaluation. All factors that may be relevant to the proposals will be considered.

Persons wishing to comment on or object to the issuance of a proposed permit are invited to submit comments in writing to the Department of Environment and Conservation Division of Water Pollution Control at the address listed above. Written statements received in this office on or before the date of expiration of the comment period thirty days from the publication date of this notice will become part of the record and will be considered in the determination. The applicant's name and permit number should be referenced.

Interested persons may also request in writing that the director of the Division hold a public hearing on any application. The request must be filed within the comment period and must indicate the interest of the person requesting it, and the reasons that the hearing is warranted. When there is sufficient public interest, the director shall hold a hearing in accordance with Rule 1200-4-7-.04(4)(f).

After consideration of comments submitted during the public comment period, the hearing record if any, and the requirements of federal and State law, the director of the Division will make determinations regarding the final action on each permit. Permit applications, supporting documentation, and related comments are available for review and/or copying.

In accordance with the Tennessee Antidegradation Statement (Rule 1200-4-3-.06), the division has determined that the proposed activity will not result in degradation to water quality.
